The Contractor shall continue performance of this contract until notified by the Contracting Officer of the appropriate action to be taken.

(d) The Contractor agrees to insert in any subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (d), unless otherwise authorized by the Contracting Officer.

LIMITATION OF FUTURE CONTRACTING (ARCS) (DEC 1997)

(a) The parties to this contract agree that the Contractor will be restricted in its future contracting in the manner described below. Except as specifically provided in this clause, the Contractor shall be free to compete for contracts on an equal basis with other companies.

(b) The Contractor will be ineligible to enter into a contract for remedial action projects for which the Contractor has developed the statement of work or the solicitation package.

(c) The following applies when ARCS work is performed under this contract and when both ARCS work and Field Investigative Team (FIT) work are performed on the same site under this contract: Unless prior written approval is obtained from the cognizant EPA Contracting Officer, the Contractor, during the life of the work assignment and for a period of five (5) years after the completion of the work assignment, agrees not to enter into a contract with or to represent any party, other than EPA, with respect to: (1) any work relating to CERCLA activities which pertain to a site where the Contractor previously performed work for EPA under this contract; or (2) any work that may jeopardize CERCLA enforcement actions which pertain to a site where the Contractor previously performed work for the EPA under this contract.

(d) The following applies to FIT work at sites under this contract where only FIT work is performed, except for those sites where EPA has made a determination of "no further remedial action planned" (NFRAP): Unless prior written approval is obtained from the cognizant EPA Contracting Officer, the Contractor, during the life of the work assignment and for a period of three (3) years after the completion of the work assignment, agrees not to enter into a contract with or to represent any party, other than EPA, with respect to: (1) Any work relating to CERCLA activities which pertain to a site where the Contractor previously performed work for EPA under this contract; or (2) any work that may jeopardize CERCLA enforcement actions which pertain to a site where the Contractor previously performed work for the EPA under this contract.

(e) The Contractor and any subcontractors, during the life of this contract, shall be ineligible to enter into an EPA contract or a subcontract under an EPA contract, which supports EPA's performance of Superfund Headquarters policy work including support for the analysis and development of regulations, policies, or guidance that govern, affect, or relate to the conduct of response action activities, unless otherwise authorized by the Contracting Officer. Examples of such contracts include, but are not limited to, Superfund Management and Analytical support contracts, and Superfund Technical and Analytical support contracts.

(f) The Contractor agrees in advance that if any bids/proposals are submitted for any work that would require written approval of the Contracting Officer prior to entering into a contract subject to the restrictions of

this clause, then the bids/proposals are submitted at the Contractor's own risk. Therefore, no claim shall be made against the Government to recover bid/proposal costs as a direct cost whether the request for authorization to enter into the contract is denied or approved.

(g) To the extent that the work under this contract requires access to proprietary or confidential business or financial data of other companies, and as long as such data remains proprietary or confidential, the Contractor shall protect such data from unauthorized use and disclosure.

(h) The Contractor agrees to insert in each subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for nondiscretionary technical or engineering services, including treatability studies, well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (g) unless otherwise authorized by the Contracting Officer. The Contractor may request in writing that the Contracting Officer exempt from this clause a particular subcontract or consultant agreement for nondiscretionary technical or engineering services not specifically listed above, including laboratory analysis. The Contracting Officer will review and evaluate each request on a case-by-case basis before approving or disapproving the request.

(i) If the Contractor seeks an expedited decision regarding its initial future contracting request, the Contractor may submit its request to both the Contracting Officer and the next administrative level within the Contracting Officer's organization.

(j) A review process available to the Contractor when an adverse determination is received shall consist of a request for reconsideration to the Contracting Officer or a request for review submitted to the next administrative level within the Contracting Officer's organization. An adverse determination resulting from a request for reconsideration by the Contracting Officer will not preclude the contractor from requesting a review by the next administrative level. Either a request for review or a request for reconsideration must be submitted to the appropriate level within 30 calendar days after receipt of the initial adverse determination.

(End of clause)

LIMITATION OF FUTURE CONTRACTING
ALTERNATE I (TCRR) (DEC 1997)

(a) The parties to this contract agree that the Contractor will be restricted in its future contracting in the manner described below. Except as specifically provided in this clause, the Contractor shall be free to com-

pete for contracts on an equal basis with other companies.

(b) If the Contractor, under the terms of this contract, or through the performance of work pursuant to this contract, is required to develop specifications or statements of work and such specifications or statements of work are incorporated into an EPA solicitation, the Contractor shall be ineligible to perform the work described in that solicitation as a prime Contractor or subcontractor under an ensuing EPA contract.

(c) Unless prior written approval is obtained from the cognizant EPA Contracting Officer, the Contractor, during the life of the delivery order or tasking document and for a period of five (5) years after the completion of the delivery order or tasking document, agrees not to enter into a contract with or to represent any party, other than EPA, with respect to: (1) any work relating to CERCLA activities which pertain to a site where the Contractor previously performed work for EPA under this contract; or (2) any work that may jeopardize CERCLA enforcement actions which pertain to a site where the Contractor previously performed work for the EPA under this contract.

(d) During the life of this contract, including any options, the Contractor agrees that unless otherwise authorized by the Contracting Officer:

Examples of such contracts include, but are not limited to, Superfund Management and Analytical support contracts, and Superfund Technical and Analytical support contracts.

(f) The Contractor agrees in advance that if any bids/proposals are submitted for any work that would require written approval of the Contracting Officer prior to entering into a contract subject to the restrictions of this clause, then the bids/proposals are submitted at the Contractor's own risk. Therefore, no claim shall be made against the Government to recover bid/proposal costs as a direct cost whether the request for authorization to enter into the contract is denied or approved.

(g) To the extent that the work under this contract requires access to proprietary or confidential business or financial data of other companies, and as long as such data remains proprietary or confidential, the Contractor shall protect such data from unauthorized use and disclosure.

(h) The Contractor agrees to insert in each subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for nondiscretionary technical or engineering services, including treatability studies, well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (g) unless otherwise authorized by the Contracting Officer. The Contractor may request in writing that the Contracting Officer exempt from this clause a particular subcontract or consultant agreement for nondiscretionary technical or engineering services not specifically listed above, including laboratory analysis. The Contracting Officer will review and evaluate each request on a case-by-case basis before approving or disapproving the request.

(i) If the Contractor seeks an expedited decision regarding its initial future contracting request, the Contractor may submit its request to both the Contracting Officer and the next administrative level within the Contracting Officer's organization.

(j) A review process available to the Contractor when an adverse determination is received shall consist of a request for reconsideration to the Contracting Officer or a request for review submitted to the next administrative level within the Contracting Officer's organization. An adverse determination resulting from a request for reconsideration by the Contracting Officer will not preclude the Contractor from requesting a review by the next administrative level. Either a request for review or a request for reconsideration must be submitted to the appropriate level within 30 calendar days after receipt of the initial adverse determination.

(End of clause)

LIMITATION OF FUTURE CONTRACTING,

(c) Unless prior written approval is obtained from the cognizant EPA Contracting Officer, the Contractor, during the life of the technical direction document and for a period of five (5) years after the completion of the technical direction document, agrees not to enter into a contract with or to represent any party, other than EPA, with respect to: (1) Any work relating to CERCLA activities which pertain to a site where the Contractor previously performed work for EPA under this contract; or (2) any work that may jeopardize CERCLA enforcement actions which pertain to a site where the Contractor previously performed work for the EPA under this contract.

(2) Unless an individual design for the site has been prepared by a third party, it will not provide to EPA as a prime contractor, subcontractor or consultant any remedial construction services at a site where it has performed or plans to perform TAT work. This clause will not preclude TAT contractors from performing construction management services under other EPA contracts.

(3) It will be ineligible for award of TCRR type activities contracts for sites within its respective TAT assigned geographical area(s) which result from a CERCLA administrative order, a CERCLA or RCRA consent decree or a court order.

(e) The Contractor and any subcontractors, during the life of this contract, shall be ineligible to enter into an EPA contract or a subcontract under an EPA contract, which supports EPA's performance of Superfund Headquarters policy work including support for the analysis and development of regulations, policies, or guidance that govern, affect, or relate to the conduct of response action activities, unless otherwise authorized by the Contracting Officer. Examples of such contracts include, but are not limited to, Superfund Management and Analytical support contracts, and Superfund Technical and Analytical support contracts.

(f) The Contractor agrees in advance that if any bids/proposals are submitted for any work that would require written approval of the Contracting Officer prior to entering into a contract subject to the restrictions of this clause, then the bids/proposals are submitted at the Contractor's own risk. Therefore, no claim shall be made against the Government to recover bid/proposal costs as a direct cost whether the request for authorization to enter into the contract is denied or approved.

(g) To the extent that the work under this contract requires access to proprietary or confidential business or financial data of other companies, and as long as such data remains proprietary or confidential, the Contractor shall protect such data from unauthorized use and disclosure.

(h) The Contractor agrees to insert in each subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for nondiscretionary technical or engineering services, including treatability studies, well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (g) unless otherwise authorized by the Contracting Officer. The Contractor may request in writing that the Contracting Officer exempt from this clause a particular subcontract or consultant agreement for nondiscretionary technical or engineering services not specifically listed above, including laboratory analysis. The Contracting Officer will review and evaluate each request on a case-by-case basis before approving or disapproving the request.

(i) If the Contractor seeks an expedited decision regarding its initial future contracting request, the Contractor may submit its request to both the Contracting Officer and the next administrative level within the Contracting Officer's organization.

(j) A review process available to the Contractor when an adverse determination is received shall consist of a request for reconsideration to the Contracting Officer or a request for review submitted to the next administrative level within the Contracting Of-

ficer's organization. An adverse determination resulting from a request for reconsideration by the Contracting Officer will not preclude the Contractor from requesting a review by the next administrative level. Either a request for review or a request for reconsideration must be submitted to the appropriate level within 30 calendar days after receipt of the initial adverse determination.

(c) If the Contractor, under the terms of this contract, or through the performance of work pursuant to this contract, is required to develop specifications or statements of work and such specifications or statements of work are incorporated into an EPA solicitation, the Contractor shall be ineligible to perform the work described in that solicitation as a prime Contractor or subcontractor under an ensuing EPA contract.

(d) Unless prior written approval is obtained from the cognizant EPA Contracting Officer, the Contractor, during the life of the work assignment and for a period of seven (7) years after the completion of the work assignment, agrees not to enter into a contract with or to represent any party, other than

EPA, with respect to: (1) Any work relating to CERCLA activities which pertain to a site where the Contractor previously performed work for EPA under this contract; or (2) any work that may jeopardize CERCLA enforcement actions which pertain to a site where the Contractor previously performed work for the EPA under this contract.

Examples of such contracts include, but are not limited to, Superfund Management and Analytical support contracts, and Superfund Technical and Analytical support contracts.

(f) The Contractor agrees in advance that if any bids/proposals are submitted for any work that would require written approval of the Contracting Officer prior to entering into a contract subject to the restrictions of this clause, then the bids/proposals are submitted at the Contractor's own risk. Therefore, no claim shall be made against the Government to recover bid/proposal costs as a direct cost whether the request for authorization to enter into the contract is denied or approved.

(g) To the extent that the work under this contract requires access to proprietary or confidential business or financial data of other companies, and as long as such data remains proprietary or confidential, the Contractor shall protect such data from unauthorized use and disclosure.

(h) The Contractor agrees to insert in each subcontract or consultant agreement placed hereunder, except for subcontracts or consultant agreements for nondiscretionary technical or engineering services, including treatability studies, well drilling, fence erecting, plumbing, utility hookups, security guard services, or electrical services, provisions which shall conform substantially to the language of this clause, including this paragraph (g) unless otherwise authorized by the Contracting Officer. the next administrative level within the Contracting Officer's organization.

(j) A review process available to the Contractor when an adverse determination is received shall consist of a request for reconsideration to the Contracting Officer or a request for review submitted to the next administrative level within the Contracting Officer's organization. LEVEL OF EFFORT—COST-REIMBURSEMENT TERM CONTRACT (APR 1984)

(a) The Contractor shall perform all work and provide all required reports within the level of effort specified below. The Government hereby orders—direct labor hours for the base period, which represents the Government's best estimate of the level of effort to fulfill these requirements.

(b) Direct labor includes personnel such as engineers, scientists, draftsmen, technicians, statisticians, and programmers and not support personnel such as company management, typists, and key punch operators even though such support personnel are normally treated as direct labor by the Contractor. The level of effort specified in paragraph (a) includes Contractor, subcontractor, and consultant labor hours.

(c) If the Contractor provides less than 90 percent of the level of effort specified for the base period or any optional period ordered, an equitable downward adjustment of the fixed fee, if any, for that period will be made. The Government may require the Contractor to provide additional effort up to 110 percent of the level of effort for any period until the estimated cost for that period has been reached. However, this additional effort shall not result in any increase in the fixed fee, if any. If this is a cost-plus-incentive-fee (CPIF) contract, the term "fee" in this paragraph means "base fee and incentive fee." If this is a cost-plus-award-fee (CPAF) contract, the term "fee" in this paragraph means "base fee and award fee."

(d) If the level of effort specified to be ordered during a given base or option period is not ordered during that period, that level of effort may not be accumulated and ordered during a subsequent period.

(e) These terms and conditions do not supersede the requirements of either the "Limitation of Cost" or "Limitation of Funds" clauses.

WORK ASSIGNMENTS (APR 1984)

(a) The contractor shall perform work under this contract as specified in written work assignments issued by the Contracting Officer.

(b) Each work assignment will include (1) a numerical designation, (2) the estimate of required labor hours, (3) the period of performance and schedule of deliverables, and (4) the description of the work.

(c) The Contractor shall acknowledge receipt of each work assignment by returning to the Contracting Officer a signed copy of the work assignment within ____ calendar days after its receipt. The Contractor shall begin work immediately upon receipt of a work assignment. Within ____ calendar days after receipt of a work assignment, the Contractor shall submit ____ copies of a work plan to the Project Officer and ____ copies to the Contracting Officer. Within ____ calendar days after receipt of the work plan, the Contracting Officer will provide written approval or disapproval of it to the Contractor.

If the Contractor has not received approval on a work plan within ____ calendar days after its submission, the Contractor shall stop work on that work assignment. Also, if the Contracting Officer disapproves a work plan, the Contractor shall stop work until the problem causing the disapproval is resolved. In either case, the Contractor shall resume work only when the Contracting Officer finally approves the work plan.

(d) This clause does not change the requirements of the "Level of Effort" clause, nor the notification requirements of either the "Limitation of Cost" or "Limitation of Funds" clauses.

(e) Work assignments shall not allow for any change to the terms or conditions of the contract. Where any language in the work assignment may suggest a change to the terms or conditions, the Contractor shall immediately notify the Contracting Officer.

(End of clause)

Alternate I. As prescribed in 1512.104(b), modify the existing clause by adding the following paragraph (f) to the basic clause:

(f) Within 20 days of receipt of the work assignment or similar tasking document, the Contractor shall provide a conflict of interest certification. Where work assignments or similar tasking documents are issued under this contract for work on or directly related to a site, the Contractor is only required to provide a conflict of interest certification for the first work assignment issued for that site. For all subsequent work on that site under this contract, the Contractor has a continuing obligation to search and report any actual or potential conflicts of interest, but no additional conflict of interest certifications are required.

Before submitting the conflict of interest certification, the contractor shall search its records accumulated, at a minimum, over the past three years immediately prior to the receipt of the work assignment or similar tasking document. In the COI certification, the Contractor must certify to the best of the Contractor's knowledge and belief, that all actual or potential organizational conflicts of interest have been reported to the Contracting Officer or that to the best of the Contractor's knowledge and belief, no actual or potential organizational conflicts of interest exist. (f) Within 20 days of receipt of the work assignment or similar tasking document, the Contractor shall provide a conflict of interest certification. Where work assignments or similar tasking documents are issued under this contract for work on or directly related to a site, the Contractor is only required to provide a conflict of interest certification for the first work assignment issued for that site. For all subsequent work on that site under this contract, the Contractor has a continuing obligation to search and report any actual or potential conflicts of interest, but no additional conflict of interest certifications are required.

Before submitting the conflict of interest certification, the contractor shall initially search through all of its available records to identify any actual or potential conflicts of interest. During the first three years of this contract, the contractor shall search through all records created since the beginning of the contract plus the records of the contractor prior to the award of the contract until a minimum of three years of records are accumulated. Once three years of records have accumulated, prior to certifying, the contractor shall search its records accumulated, at a minimum, over the past three years immediately prior to the receipt of the work assignment or similar tasking document. In the certification, the Contractor must certify to the best of the Contractor's knowledge and belief, that all actual or potential organizational conflicts of interest have been reported to the Contracting Officer or that to the best of the Contractor's knowledge and belief, no actual or potential organizational conflicts of interest exist. In addition, the Contractor must certify that its personnel who perform work under this work assignment or relating to this work assignment have been informed of their obligation to report personal and organizational conflicts of interest to the Contractor. The certification shall also include a statement that the Contractor recognizes its continuing obligation to identify and report any actual or potential conflicts of interest arising during performance of this work assignment or other work related to this site.

1552.214-71 Contract award—other factors—formal advertising.

As prescribed in 1514.201-6(b), insert the following solicitation provision in invitations for bids (IFB) when it is appropriate to describe other factors that will be used in evaluating bids for award. This provision is used to describe the other factors mentioned in the solicitation provisions "Contract Award—Formal Advertising" (FAR 52.214-10), and "Contract Award—Construction" (FAR 52.214-19). All other evaluation provisions in the IFB (e.g., evaluation of options) should be cross-referenced in this provision. As prescribed in 1515.605, insert the following provision.

1552.215-71

EPA SOURCE EVALUATION AND SELECTION PROCEDURES—PROCUREMENTS (SEP 1996)

(a) The Government will perform source selection in accordance with FAR Part 15 and the EPA Source Evaluation and Selection Procedures in EPAAR Part 1515 (48 CFR Part 1515). The significant features of this procedure are:

Cost or price realism relates to an offeror's demonstrating that the proposed cost or price provides an adequate reflection of the offeror's understanding of the requirements of this solicitation, i.e., that the cost or price is not unrealistically low or unreasonably high.

(2) The Government will evaluate technical proposals as specified in 1552.215-71, Evaluation Factors for Award.

(b) In addition to evaluation of the previously discussed elements, the Government will consider in any award decision the responsibility factors set forth in FAR Part 9.

1552.215-73 Instructions for the preparation of technical and cost or pricing proposals.

As prescribed in 1515.407(a), insert the following provision:

INSTRUCTIONS FOR THE PREPARATION OF TECHNICAL AND COST OR PRICING PROPOSALS (AUG 1993)

(a) Technical proposal instructions.

(1) Submit your technical proposal as a separate part of the total proposal package. Omit all cost or pricing details from the

technical proposal. Include the following elements in your technical proposal (see also the Statement of Work and the Technical Evaluation Criteria):

- (i) Technical approach;
 - (ii) Technical management;
 - (iii) Key technical personnel;
 - (iv) Assumptions, deviations, and exceptions (as necessary); and
 - (v) Additional information.
- (2) Special technical proposal instructions.

(b) Cost or pricing proposal instructions.

Your cost or price proposal shall be specific, complete in every detail, and separate from your technical proposal. In addition to a hard copy of the information, to expedite review of your proposal, you are requested to submit a computer disk containing the financial data required under 1552.21573(b)(2) through (b)(9), if this information is available using a commercial spreadsheet program on a personal computer. Please indicate the software program used to create this information. Offerors should include the formulas and factors used in calculating the financial data on the disk as well as the basic financial information. Although submission of the computer disk will expedite review, failure to submit the disk will not affect consideration of your proposal.

(1) General—Submit cost or pricing data on Standard Form 1411, Contract Pricing Proposal Cover Sheet, prepared in accordance with FAR 15.804-6, FAR Table 15-3, and the following:

(i) Clearly identify separate cost or pricing data associated with any:

(A) Options to extend the term of the contract;

(B) Options for the Government to order incremental quantities; and/or

(C) Major tasks, if required by the special instructions.

You may indicate the above cost or price detailed data in narrative form or on a spreadsheet, provided that all cost or pricing data is adequately and clearly described. Place recap/summary information on the SF 1411.

(ii) Clearly identify all costs and data in support of the proposed cost/price. Include the index required by FAR 15.804, Table 15-2 Paragraph 4.

(iii) Submit a current financial statement, including a balance sheet and a statement of profit and loss for the last completed fiscal year. Specify resources available to perform the contract without assistance from any outside source. If sufficient resources are not available, indicate in your proposal the amount required and the anticipated source (i.e., bank loans, letter or lines of credit, etc.).

(iv) If other division, subsidiaries, a parent or affiliated companies will perform work or furnish materials under this proposed con-

tract, please provide the name and location of such affiliate and your intercompany pricing policy. Separately identify costs and supporting data for each such entity proposed.

(v) If the contract schedule includes a "Fixed Rates for Services" clause, please provide in your cost proposal a schedule duplicating the format in the clause and include your proposed fixed hourly rates per labor category for the base and any option contract periods.

(vi) If the contract includes the clause at EPAAR 1552.232-73, "Payments—Fixed-Rate Services Contract," or the clause at FAR 52.232-7, "Payments Under Time and Materials and Labor-Hour Contracts," include in your cost proposal the estimated costs and burden rate you will apply to materials, other direct costs, or subcontracts. The Government will include these costs as part of its cost proposal evaluation.

(vii) Whenever subcontractor effort is included in the proposed costs, the prime contractor shall include an additional supporting cost summary consolidating all costs (both contractor and subcontractor) by element for each contract period.

(2) Direct Labor.

(i) Attach support schedules for each proposed labor category, indicating both proposed hours and rates. Explain the basis of the proposed labor rates, including a complete justification for all judgmental factors used to develop weights applied to your company's category or individual rates that comprise the rates for labor categories specified in the solicitation. This explanation should describe how your technical approach coincides with the proposed costs.

Describe for each labor category proposed your company's qualifications and experiences requirements. If individual rates are used, also provide the employee's name. If specific individuals are identified in the technical proposal, correlate these individuals with the labor categories specified in the solicitation.

Provide a matrix summarizing the effort proposed, including the subcontracts, by professional and technical level specified in the solicitation.

(ii) Indicate whether current rates or escalated rates are used. If escalation is included, state the degree (percent) and methodology. The methodology shall include the effective date of the base rates and the policy on salary reviews (e.g. anniversary date of employee or salary reviews for all employees on a specific date).

(iii) State whether any additional direct labor (new hires) will be required during the performance period of this acquisition. If so, state the number required.

(iv) With respect to educational institutions, include the following information for those professional staff members whose salary is expected to be covered by a stipulated

salary support agreement pursuant to OMB Circular A-21.

(A) Individual's name;

(B) Annual salary and the period for which the salary is applicable;

(C) List of other research projects or proposals for which salary is allocated, and the proportionate time charged to each; and

(D) Other duties, such as teaching assignments, administrative assignments, and other institutional activities. Show the proportionate time charged to each. (Show proportionate time charges as a percentage of 100% of time for the entire academic year, exclusive of vacation or sabbatical leave.)

(3) Indirect costs (overhead, general, and administrative expenses). Unless your proposed indirect rate(s) have recently been accepted by a contracting agency of the Government, provide detailed supporting computations. These computations may include historical as well as budgeted data. Indicate whether your computations are based upon historical or projected data. If your rates have been recently approved, include a copy of the agreement. If the agreement does not cover the projected performance period of the proposed effort, provide the rationale and any estimated rate calculations for the proposed performance period.

(4) Travel expense.

(i) Attach a schedule illustrating how travel was computed. Include a breakdown indicating the number of trips, number of travelers, destination, purpose and cost.

(ii) If the solicitation specifies the amount of travel costs, this amount is exclusive of any applicable indirect costs and fee.

(5) Consultant service.

Identify the contemplated consultants. State the amount of service estimated to be required and the consultant's quoted daily or hourly rate.

(6) When the cost of a subcontract is substantial (25 percent of the estimated contract value or \$10,000, whichever is less), include details of subcontract costs in the same format as the prime Contractor's costs. Include a cost or price analysis of the subcontract costs in accordance with FAR 15.806-1(a)(2).

(7) Equipment (not including special equipment).

(i) If direct charges for use of existing contractor equipment are proposed, provide a description of these items and details of the basis of such charges.

(ii) If equipment purchases are proposed, provide a description of these items, details of the proposed costs (including at least three price quotes), and a justification as to why the Government should furnish the equipment or allow its purchase with contract funds.

(iii) Identify Government-owned property in the possession of the offeror or proposed to be used in the performance of the con-

tract, and the Government agency which has cognizance over the property.

(8) Facilities and special equipment, including tooling.

(i) If special purpose facilities or equipment is being proposed, provide a description of these items, details of the proposed costs including competitive prices, and justification as to why the Government should furnish the equipment or allow its purchase with contract funds.

(ii) If fabrication by the prime Contractor is contemplated, include details of material, labor, and overhead.

(9) Other Direct Costs.

(i) Attach a schedule detailing how other direct costs were computed. Identify the major ODC items that under your accounting system would be a direct change on any resulting contract.

(ii) If the solicitation specifies the amount of other direct costs, this amount is exclusive of any applicable indirect cost and fee.

(End of provision)

Alternate I (AUG 1993). If this solicitation is for a cost-reimbursable, level of effort type contract, add the following at the end of paragraph (b)(2)(i):

All management and support (such as clerical, corporate and day-to-day management) hours and costs proposed to be a direct charge, in accordance with your normal accounting treatment, are to be shown separately from that for the technical effort.

Alternate II (AUG 1993). If the Government's requirement is a fully dedicated staff person for a twelve month period(s) for each specified position and performance is on a Government facility, add the following paragraph (b)(2)(v) to the basic provision:

(v) The level of effort for each position is to be proposed in workyears. A workyear is considered to consist of 2080 hours inclusive of direct and indirect time (40 hours per week \times 52 weeks per year = 2080 hours). Your proposal must identify proposed workyears and clearly identify how many hours in each workyear are direct (i.e. productive working hours) and how many are indirect (i.e. paid absences). If your company policy includes a different base work week, your total available hours would be different. For example, if your company's policy calls for a 37.5 hour work week, you would deduct your paid absences from 1950 hours (37.5 hr/wk \times 52wks/yr = 1950 hrs). It should also clearly identify the paid absences as to how many hours are for holiday and how many hours are for vacation and sick leave.

The amount of indirect time (paid absences) identified in your proposal must be

Environmental Protection Agency

1552.215-74

consistent with company policy and must allow for the ten Federal Government holidays.

Alternate III (AUG 1993). If the Government's requirement is a fully dedicated staff person for a twelve month period(s) for each specified position and performance is not on a Government facility, add the following paragraph (b)(2)(v) to the basic provision:

(v) The level of effort for each position is to be proposed in workyears. A workyear is considered to consist of 2080 hours inclusive of direct and indirect time (40 hours per week \times 52 weeks per year = 2080 hours). Your proposal must identify proposed workyears and clearly identify how many hours in each workyear are direct (i.e. productive working hours) and how many are indirect (i.e. paid absences). 1552.215-74 Cost proposal instructions.

As prescribed in 1515.407(c), insert a provision substantially as follows in negotiated procurement solicitation documents when cost or pricing data is required in an offeror's proposal and it is necessary to obtain the detailed cost data specified in the provision. While designed to obtain cost data for procurements under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) ("Super Fund") program, the provision may be used in other negotiated solicitations.

COST PROPOSAL INSTRUCTIONS (AUG 1993)

Offerors are instructed to prepare their cost proposals in sufficient detail to permit thorough and complete evaluation by the Government. Categories of labor to be employed, for example, and the associated number of estimated hours per category, shall be clearly identified. All items of equipment, together with estimated usage hours, shall be set forth. All material costs, travel and per diem costs, analysis costs, and transportation and disposal costs shall be identified as well. Where proposed rates are not based upon catalog or list prices, the basis for the proposed rates shall be identified. Equipment

rates may be proposed on any basis (e.g., hourly, daily, weekly, monthly).

The cost proposal shall be submitted on Standard Form 1411, Contract Pricing Proposal Cover Sheet, prepared in accordance with general instructions in FAR 15.804-6 and FAR Table 15-3. Summary data should be placed on SF 1411, and the following format should be followed in preparing the detailed cost proposal. All items which are subcontracted should be clearly identified and should include the name and address of the proposed subcontractor. Written quotations for all subcontracted services must accompany your cost proposal.

If a contractor, through an employee or otherwise, is subpoenaed to testify or produce documents, which could result in such disclosure, the Contractor must provide immediate advance notification to the EPA so that the EPA can authorize such disclosure or have the opportunity to take action to prevent such disclosure. Such agreements shall be effective for the life of the contract and for a period of five (5) years after completion of the contract.

(c) The EPA may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to prevent the unauthorized disclosure of information to outside entities. If such a disclosure occurs without the written permission of the EPA Contracting Officer, the Government may terminate the contract, for default or convenience, or pursue other remedies as may be permitted by law or this contract.

The Contractor shall include this clause, suitably modified to identify the parties, in all subcontracts at any tier. 1552.232-70 Submission of invoices.

As prescribed in 1532.908, insert the following clause:

SUBMISSION OF INVOICES (JUN 1996)

In order to be considered properly submitted, an invoice or request for contract financing payment must meet the following contract requirements in addition to the requirements of FAR 32.905:

(a) Unless otherwise specified in the contract, an invoice or request for contract financing payment shall be submitted as an original and five copies. The Contractor shall submit the invoice or request for contract financing payment to the following offices/individuals designated in the contract: the original and two copies to the Accounting Operations Office shown in Block _____ on the cover of the contract; two copies to the Project Officer (the Project Officer may direct one of these copies to a separate address); and one copy to the Contracting Officer.

(b) The Contractor shall prepare its invoice or request for contract financing payment on the prescribed Government forms. Standard Forms Number 1034, Public Voucher for Purchases and Services other than Personal, shall be used by contractors to show the amount claimed for reimbursement. Standard Form 1035, Public Voucher for Purchases and Services other than Personal—Continuation Sheet, shall be used to furnish the necessary supporting detail or additional information required by the Contracting Officer. The Contractor may submit self-designed forms which contain the required information.

(c)(1) The Contractor shall prepare a contract level invoice or request for contract financing payment in accordance with the invoice preparation instructions identified as a separate attachment in Section J of the contract. If contract work is authorized by individual work assignments, the invoice or request for contract financing payment shall also include a summary of the current and cumulative amounts claimed by cost element for each work assignment and for the contract total, as well as any supporting data for each work assignment as identified in the instructions.

(2) The invoice or request for contract financing payment shall include current and cumulative charges by major cost element

such as direct labor, overhead, travel, equipment, and other direct costs. For current costs, each major cost element shall include the appropriate supporting schedule identified in the invoice preparation instructions. Cumulative charges represent the net sum of current charges by cost element for the contract period.

(3) The charges for subcontracts shall be further detailed in a supporting schedule showing the major cost elements for each subcontract. The degree of detail for any subcontract exceeding \$5,000 is to be the same as that set forth under (c)(2).

(4) The charges for consultants shall be further detailed in the supporting schedule showing the major cost elements of each consultant. For current costs, each major cost element of the consulting agreement shall also include the supporting schedule identified in the invoice preparation instructions.

(d) Invoices or requests for contract financing payment must clearly indicate the period of performance for which payment is requested. Separate invoices or requests for contract financing payment are required for charges applicable to the basic contract and each option period.

(e)(1) Notwithstanding the provisions of the clause of this contract at FAR 52.216-7, Allowable Cost and Payment, invoices or requests for contract financing payment shall be submitted once per month unless there has been a demonstrated need and Contracting Officer approval for more frequent billings. When submitted on a monthly basis, the period covered by invoices or requests for contractor financing payments shall be the same as the period for monthly progress reports required under this contract.

(2) If the Contracting Officer allows submissions more frequently than monthly, one submittal each month shall have the same ending period of performance as the monthly progress report.

(3) Where cumulative amounts on the monthly progress report differ from the aggregate amounts claimed in the invoice(s) or request(s) for contract financing payments covering the same period, the contractor shall provide a reconciliation of the difference as part of the payment request. Alternate I (JUN 1996). If used in a fixed-rate type contract, substitute the following paragraphs (c)(1) and (2) for paragraphs (c)(1) and (2) of the basic clause:

(c)(1) The Contractor shall prepare a contract level invoice or request for contract financing payment in accordance with the invoice preparation instructions identified as a separate attachment in Section J of the contract. If contract work is authorized by individual delivery orders, the invoice or request for contract financing payment shall also include a summary of the current and cumulative amounts claimed by cost element for

each delivery order and for the contract total, as well as any supporting data for each delivery order as identified in the instructions.

(2) The invoice or request for contract financing payment that employs a fixed rate feature shall include current and cumulative charges by contract labor category and by other major cost elements such as travel, equipment, and other direct costs. For current costs, each cost element shall include the appropriate supporting schedules identified in the invoice preparation instructions.

1552.232-71—1552.232-72 [Reserved]

1552.232-73 Payments—fixed-rate services contract.

As prescribed in 1532.111, insert the following in indefinite delivery/indefinite quantity contracts with fixed services rates.

PAYMENTS—FIXED-RATE SERVICES CONTRACT (APR 1984)

The Government shall pay the Contractor as follows upon the submission of invoices or vouchers approved by the Contracting Officer:

(a) Hourly rate. (1) The amounts shall be computed by multiplying the appropriate hourly rates prescribed in the Schedule by the number of direct labor hours performed. The rates shall include wages, indirect costs, general and administrative expenses, and profit. Fractional parts of an hour shall be payable on a prorated basis. Vouchers may be submitted once each month (or at more frequent intervals, if approved by the Contracting Officer) to the paying office. The Contractor shall substantiate vouchers by evidence of actual payment and by individual daily job, timecards, or other substantiation approved by the Contracting Officer. Promptly after receipt of each substantiated voucher, the Government shall, except as otherwise provided in this contract and subject to the terms of paragraph (e) of this contract, pay the voucher as approved by the Contracting Officer.

(2) Unless otherwise prescribed in the Schedule, the Contracting Officer shall withhold 5 percent of the amounts due under this paragraph (a), but the total amount withheld shall not exceed \$50,000. The amounts withheld shall be retained until the execution and delivery of a release by the Contractor as provided in paragraph (f) of this contract.

(3) Unless the Schedule prescribes otherwise, the hourly rates in the Schedule shall not be varied by virtue of the Contractor having performed work on an overtime basis. If no overtime rates are provided in the Schedule and overtime work is approved in

advance by the Contracting Officer, overtime rates shall be negotiated. Failure to agree upon these overtime rates shall be treated as a dispute under the "Disputes" clause of this contract. If the Schedule provides rates for overtime the premium portion of those rates will be reimbursable only to the extent the overtime is approved by the Contracting Officer.

(b) Materials, other direct costs, and subcontracts. (1) The allowability of direct materials and other direct costs shall be determined by the Contracting Officer in accordance with subpart 31.2 of the Federal Acquisition Regulation (FAR) in effect on the date of this contract. Reasonable and allocable material handling costs or indirect costs may be included in the charge for material or other direct costs to the extent they are clearly excluded from the hourly rate. Material handling and/or indirect cost rates are specified in the "Indirect Costs" clause. Material handling costs are comprised of indirect costs, including, when appropriate, general and administrative expense allocated to direct materials in accordance with the Contractor's usual accounting practices consistent with subpart 31.2 of the FAR. The Contractor shall be reimbursed for items and services purchased directly for the contract only when cash, checks, or other forms of actual payment have been made for such purchased items or services. Direct materials or other direct costs, as used in this clause, are those items which enter directly into the end product, or which are used or consumed directly in connection with the furnishing of the end product.

(2) Subcontracted effort may be included in the fixed hourly rates discussed in paragraph (a)(1) of this clause and will be reimbursed as discussed in that paragraph. Otherwise, the cost of subcontracts that are authorized under the subcontracts clause of this contract shall be reimbursable costs under this clause provided that the costs are consistent with paragraph (3) of this clause. Reimbursable costs in connection with subcontracts shall be limited to the amounts paid to the subcontractor in the same manner as for items and services purchased directly for the contract under paragraph (1) of this clause; however, this requirement shall not apply to a Contractor that is a small business concern. Reimbursable costs shall not include any costs arising from the letting, administration, or supervision of performance of the subcontract, if the costs are included in the hourly rates payable under paragraph (a)(1) of this clause.

(3) To the extent able, the Contractor shall (i) obtain materials at the most advantageous prices available with due regard to securing prompt delivery of satisfactory materials; and (ii) take all cash and trade discounts, rebates, allowances, credits, salvage, commissions, and other benefits. When un-

able to take advantage of the benefits, the Contractor shall promptly notify the Contracting Officer and give the reasons. Credit shall be given to the Government for cash and trade discounts, rebates, allowances, credits, salvage, the value of any appreciable scrap, commissions, and other amounts that have accrued to the benefit of the Contractor, or would have accrued except for the fault or neglect of the Contractor. The benefits lost without fault or neglect on the part of the Contractor, or lost through fault of the Government, shall not be deducted from gross costs.

(4) If the nature of the work to be performed requires the Contractor to furnish material which is regularly sold to the general public in the normal course of business by the Contractor, the price to be paid for such material, notwithstanding paragraph (b)(1) of this contract, shall be on the basis of an established catalog or list price, in effect when the material is furnished, less all applicable discounts to the Government; provided, that in no event shall such price be in excess of the Contractor's sales price to its most favored customer for the same item in like quantity, or the current market price, whichever is lower.

(c) Contracting Officer notification. For contract administration purposes, the Contractor shall notify the Contracting Officer in writing when the total value of all delivery orders issued exceeds 85 percent of the maximum price specified in the schedule.

(d) Maximum amount. The Government shall not be obligated to pay the Contractor any amount in excess of the maximum amount in the Schedule, and the Contractor shall not be obligated to continue performance if to do so would exceed the maximum amount set forth in the Schedule, unless or until the Contracting Officer shall have notified the Contractor in writing that the maximum amount has been increased and shall have specified in the notice a revised maximum that shall constitute the maximum amount for performance under this contract. When and to the extent that the maximum amount set forth in the Schedule has been increased, any hours expended, and material or other direct costs incurred by the Contractor in excess of the maximum amount before the increase, shall be allowable to the same extent as if the hours expended and material costs had been incurred after the increase in the maximum amount.

(e) Audit. At any time before final payment under this contract, the Contracting Officer may request audit of the invoices or vouchers and substantiating material. Each payment previously made shall be subject to reduction to the extent of amounts, on preceding invoices or vouchers, that are found by the Contracting Officer not to have been properly payable and shall also be subject to reduction for overpayments or to increase

for underpayments. Upon receipt and approval of the voucher or invoice designated by the Contractor as the "completion voucher" or "completion invoice" and substantiating material, and upon compliance by the Contractor with all terms of this contract (including, without limitation, terms relating to patents and the terms of paragraphs (f) and (g) of this clause), the Government shall promptly pay any balance due the Contractor. The completion invoice or voucher, and substantiating material, shall be submitted by the Contractor as promptly as practicable following completion of the work under this contract, but in no event, later than one year (or such longer period as the Contracting Officer may approve in writing) from the date of completion.

(f) Assignment. The Contractor, and each assignee under an assignment entered into under this contract and in effect at the time of final payment under this contract, shall execute and deliver, at the time of and as a condition precedent to final payment under this contract, a release discharging the Government, its officers, agents, and employees of and from all liabilities, obligations, and claims arising out of or under this contract, subject only to the following exceptions:

(1) Specified claims in stated amounts, or in estimated amounts if the amounts are not susceptible of exact statement by the Contractor.

(2) Claims, together with reasonable incidental expenses, based upon the liabilities of the Contractor to third parties arising out of performing this contract, that are not known to the Contractor on the date of the execution of the release, and of which the Contractor gives notice in writing to the Contracting Officer not more than 6 years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier.

(3) Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable incidental expenses, incurred by the Contractor under the terms of this contract relating to patents.

(g) Refunds. The Contractor agrees that any refunds, rebates, or credits (including any related interest) accruing to or received by the Contractor or any assignee, that arise under the materials portion of this contract and for which the Contractor has received reimbursement, shall be paid by the Contractor to the Government. INDIRECT COSTS (APR 1984)

(a) In accordance with paragraph (d) of the "Allowable Cost and Payment" clause, the final indirect cost rates applicable to this contract shall be established between the Contractor and the appropriate Government representative (EPA, other Government agency, or auditor), as provided by FAR 42.703(a). EPA's procedures require a Contracting Officer determination of indirect cost rates for its contracts. In those cases where EPA is the cognizant agency (see FAR 42.705-1), the final rate proposal shall be submitted to the cognizant audit activity and to the following designated Contracting Officer: Environmental Protection Agency, Chief, Cost Policy and Rate Negotiation Branch (3804F), Cost Advisory and Financial Analysis Division, Washington, DC 20460.

Where EPA is not the cognizant agency, the final rate proposal shall be submitted to the above-cited address, to the cognizant audit agency, and to the designated Contracting Officer of the cognizant agency. Upon establishment of the final indirect cost rates, the Contractor shall submit an executed Certificate of Current Cost or Pricing Data (see FAR 15.804-4) applicable to the data furnished in connection with the final rates to the cognizant audit agency. The Government shall not be obligated to pay the Contractor any additional amount on account of indirect costs in excess of the ceiling rates listed below:
